If everybody could get past their own bullshit and be able to earn multiple millions of pounds, we could change this world.

It's important for me that you get over your money blocks. It's so important because whilst we're messing around with like 500, like, can I put two next to 250 pounds? Like, what's it gonna mean about me? It's not gonna mean anything about you. This is the thing like this is you having multiple millions has the potential to change the world. If everybody in our container could get past their own bullshit and be able to earn multiple millions of pounds, we could change this world. And if you wanna drive a Tesla, you can drive a Tesla. If you wanna drive a hybrid, you can do that. If you have enough money, to be able to say, what kind of car do I wanna drive? And then what do I do with the excess? What do I do with the overflow? That's why I really want there to be a lot of overflow.

This is why I'm encouraging you to think bigger than just yourselves. This is why I'm encouraging you to think bigger than 20,000 a month, 30,000 a month. And I know that those numbers can feel triggering when you are very far away from them, but this is the real reason. We can't do anything if we're only earning a hundred thousand, that's the value piece. That's why it's about the money and so much more than the money. So, you know, for the people who really genuinely find it difficult to increase their prices, I'm like, this is fine. Build your audience. Don't make a joke about building your audience, build your audience up to tens of thousands of people, then you can sell a lot, cheaply, and still be able to make the kind of difference that I'm talking about. But don't be like, mamby pamby being around like, oh, I am, you know, I don't have time to create the content. I don't have the money to build the faith. Like use the faith. Let's get serious. This is so much more than just us. So have your impact intention, really understand what does it mean over a lifetime for me to get beyond my shit so that when I think about my children's children's children, I will have had a positive impact on not only how they

see the world, how they be in the world, but what they're able to access in this world.
